

Services Provided: Concrete Pumping, Reinforcement, Formwork, Finishing, Shotcrete, and Confoam.

DISTINGUISHED PROJECTS

2016 TELEGRAPH

Key Highlights:

- The 24-story project with 200,000 square feet mixed-use tower with 223 residential units, parking and retail space.
- The tower used approximately 14,000 cubic yards of concrete and 3.5 million pounds of rebar during the construction process.
- The extremely tight jobsite made logistics coordination extremely challenging.
