

Services Provided: Pumping, Finishing, Formwork, Reinforcement, ConFoam, Shotcrete

DISTINGUISHED PROJECTS

24TH & HARRISON

Key Highlights:

- The project with 727,000 square feet of space is a mixed-use tower with 405 apartments and 60,000 square feet of retail and restaurant space.
- The 19-story project used approximately 48,000 cubic yards of concrete and 11 million pounds of rebar.
- Despite unusual obstacles like the pandemic, bad air quality from fires, political protests in close proximity to the project, material shortages from ready-mix suppliers, and even rare lightning strikes one day, Conco managed to top off the structure on schedule (October, 2020).
