
CONCRETE REINFORCEMENT

DEPENDABLE REBAR AND QUALITY INSTALLATION

Conco Reinforcing has state-of-the-art facilities and expertise to be your single source for all of your rebar fabrication and installation needs regardless of the project size. The advantage of this coordinated approach allows us to anticipate and respond quickly to any potential problems before they adversely impact the project. Our concrete reinforcement services include:

- **Reinforcing Steel**
- **Post-Tension Cables**
- **Stud Rails**

Our customers have the benefit of working with one of the best rebar fabrication facilities and the most seasoned placement experts in the Western United States. Our precision-engineered rebar is fabricated using the most modern shear lines, benders and post-tension cable manufacturing equipment to increase accuracy and productivity. In addition, Conco's dedicated placement crews are trained and equipped with advanced tools of the trade to guarantee an exceptional job. When choosing our quality concrete reinforcement services, you can be assured your project will meet goals and stay on budget.
